## **DETAILED ACTION**

### ***Election/Restriction***

I. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-40, drawn to an IL-4R spray dried powder, classified in Class 424, subclass 46.

Group 2. Claims 41-42, drawn to a method for aerosolizing an IL-4R dry powder, classified in Class 424, subclass 45.

Group 3. Claim 43, drawn to a method for preparing a dry IL-4R powder, classified in Class 424, subclass 489.

The inventions are distinct, each from the other because of the following reasons:

Inventions 2, 3 and 1 are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the IL-4R powder can be prepared by a materially different process, such as lyophilization.

Inventions 2-3, are independent and distinct, each from the other, because the methods are practiced with materially different process steps for materially different purposes and each method requires a non-coextensive search because of different starting materials, process steps and goals.

Having shown that these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has prima facie shown a

serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
